

A Hackathon Win is More Than Just Code.

In February 2025, a major Web3 hackathon concluded in Hong Kong. This is the story of one winning project, and the strategy behind it.

The screenshot shows a news article from Coindesk. The title reads "Consensus EasyA Hackathon Winners: AI Agents, Gaming, Trading, Payments, NFT Platforms". It is by Aoyon Ashraf and updated on Feb 28, 2025, at 2:45 p.m. UTC. The text summary discusses the hackathon's focus on AI agents, gaming, trading, payments, and NFT platforms. To the right of the text is a large, partially visible placeholder image for a photo.

Consensus EasyA Hackathon Winners: AI Agents, Gaming, Trading, Payments, NFT Platforms
